

## Corporate knowledge management system

We closely monitor the development of staff knowledge in order to facilitate the innovative development of the Company and to achieve optimum financial results. As part of the existing corporate knowledge management system, we follow the development processes of young specialists and staff in general,

primarily based on joint work with recognized corporate experts.

In 2017 the LUKOIL project “Creation and Development of a Corporate Knowledge Management System Based on the Example of the Knowledge Management System of the Upstream Business

Segment” was declared the winner in the Organizational Intelligence category at the 4<sup>th</sup> Russian competition of best practices of employers in developing human capital, Creating the Future.

## Youth policy

Youth policy is a key focus area for us. It comprises a system of measures aimed

at recruiting young employees and creating the necessary conditions and

opportunities to ensure their successful development.
